

This Moment

Verse

The time is here
The time is now
It's our moment
It's time to own it tonight

No holding back
Just let go
Falling headfirst
The world is waiting
Let's go

We got it
We got it
We got it
X7

Chorus

All for one and one for all
The best is yet to come
So go tell everyone
The message is love
Now go and get it done
We're holding nothing back
So give it all you got
Let's turn this place up

All for one and one for all
(Love is the movement)
The best is yet to come
So go tell everyone
(Love is the movement)
The message is love
Now go and get it done
(Love is the movement)

We're holding nothing back
So give it all you got
(Love is the movement)
Let's turn this place up

Verse

Don't look back
Take in today
Just believe
And just hold on
No matter what they say

Run straight on in
(Straight on in)
With all you got
Take this life
Live it up
Never stop

Chorus

Bridge

So call all your friends
All around the world
Tell them love wins
Inside where it begins
Don't matter where you're from
Don't matter where you've been
The party starts now
You're all invited in
X2

Chorus
